

WESTFIELD DEPARTMENT OF PUBLIC WORKS

WESTFIELD, INDIANA

DESCRIPTION

In an effort to support Westfield's transition from a Town status into a City, Browning was selected to design-build this multi-purpose office remodel and expansion. This facility now houses the City of Westfield Public Works Department along with several other City functions. Completed in 2008, the project includes over 34,000 square feet of office and conference space, a maintenance structure and a salt storage facility.

CHALLENGES

To design new office space representative of Westfield's changing governmental structure with a short time frame for completion and a limited budget. Additional hurdles included inclement winter weather conditions and the need to work around existing utilities and buildings.

ROLE

Construction Manager at-risk (Design-Build)

ACCOMPLISHMENTS

Met an aggressive schedule and delivered the new space within the prescribed budget parameters.

OWNER

City of Westfield

ARCHITECT

Cripe Architects + Engineers
